“ *Your strength and determination to not let cancer beat you is something I will never forget. At times when most people would have thrown in the towel, you pressed on coming into work with a smile on your face. I'll always remember the country music you liked to listen to, how neat your office was kept, the Ford Mustang you loved to drive and stories about the lake. I know several times you told me this day would come but I had always hoped that it would be much farther down the road. Thank you for the freindship over the last 10 years. You were an inspiration for me and for so many people. You will be deeply missed and not forgotten.*
