“ I apologize sincerely for being a little over a year late in learning of Keith’s loss, for despite the uneasy rift between one of his nephews & I, I hold your family near to my heart. Even though I’ve met Keith only a couple of times with very little conversation between us, my favorite memory of Keith is a story that his brother Corey shared with me years ago: when they were very young, Corey would tease Keith about their “grandfather” singing on the radio; the joke being that their grandfather’s name is Elton John Harmening. Once again, I apologize sincerely for your loss.
