*Ray and I met in the mid '80's when I needed some white oak skids for my fish house. I met his folks also. Really a nice family. Ray and I kept in touch either by my visits up north or by phone calls. He was a very pleasant, witty person and comfortable to be around. Today I found out he has crossed over. I had not talked with him in the last few years because of my own medical problems.*

*Rest in peace brother Ray*

*Ray Most and his parents were I second family. We moved to a neighboring farm in 1971. With no intentions of farming it wasn't long before the Nosts asked if we were going to put something in the barn or leave it empty. So they helped us pick out 4 Hereford cows with calves & we were in business. They taught us everything & helped us whenever we asked. We worked full time and farmed. It was the best years of our lives. We miss Ray & Elmer & Margie. God blessed us with being their neighbors. The Kapferer Family*
